## Working hours and remote work

Core working hours at Nordlicht Energy are 10:00 to 15:00 on weekdays. Outside these hours employees may arrange their time freely, as long as the weekly contractual hours are met. Employees may work remotely up to three days per week after completing the six-month probation period. During probation, remote work requires written approval from the team lead. Remote workers must be reachable on the team chat during core hours and must use the company VPN when accessing internal systems. Each employee receives a laptop and a monitor. Additional peripherals such as keyboards or headsets can be ordered through the IT portal up to a value of 150 euros per year.
